

As is tradition, the last issue of the year takes a look back at the most popular links from the past 12 months. 2022 was an abbreviated year (ARW spun back up in April), but plenty of great articles were published in the past 9 months. So without further delay, here are the top links measured by number of clicks for 2022!

## The most clicked links of 2022

### 1. TAP: A Morse Code alternative

This mode has roots in ancient Greece.

[SV3ORA](#)

### 2. KrakenSDR locates a repeater jammer in 1 hour

Using the KrakenSDR Radio Direction Finder, we were at his house in 60 minutes.

[RTL-SDR.com](#)

### 3. Sun is more active than NASA predicted

It could be in its strongest cycle since records began.

[Forbes](#)

### 4. sBitx: The SDR for the homebrewer

\$100 40 Watt HF transceiver based on a Raspberry Pi.

[VU2ESE](#)

### 5. Taking a long hard look at our community

Without the efforts of each individual amateur, our worldwide license to experiment is doomed.

[VK6FLAB](#)

### 6. An economical solar kit for a 100W Ham Station

These starter kits can be easily expanded with a larger battery and additional series or parallel cells.

[AE5X](#)

### 7. Morsle: The daily Morse code challenge

You have 21 tries to guess the word

[Morsle](#)

## **8. Icom announces IC-905 SHF SDR transceiver**

The IC-905 covers 144MHz, 430Mhz, 1.2GHz, 2.4GHz, 5.6GHz and (with the help of an optional module) 10GHz.

[QRPblog](#)

## **9. Why I quit QRP (and maybe shouldn't have)**

For many years I was a dedicated QRP operator, then came along the gloomy depths of the solar minimum.

[Ham Radio Outside the Box](#)

## **10. Yes, Amateur Radio is still a thing: Here's why**

With great power comes greater responsibility, and Amateur Radio is no exception.
